**TERMS AND CONDITIONS APPLICABLE TO INFORMATION TECHNOLOGY
(IT) PROFESSIONAL SERVICES (SPECIAL ITEM NUMBER 132-51)**

*****NOTE:** *All non-professional labor categories must be incidental to, and used solely to support professional services, and cannot be purchased separately.*

1. SCOPE

- a. The prices, terms and conditions stated under Special Item Number 132-51 Information Technology Professional Services apply exclusively to IT Professional Services within the scope of this Information Technology Schedule.
- b. The Contractor shall provide services at the Contractor's facility and/or at the ordering activity location, as agreed to by the Contractor and the ordering activity.

2. PERFORMANCE INCENTIVES I-FSS-60 Performance Incentives (April 2000)

- a. Performance incentives may be agreed upon between the Contractor and the ordering activity on individual fixed price orders or Blanket Purchase Agreements under this contract.
- b. The ordering activity must establish a maximum performance incentive price for these services and/or total solutions on individual orders or Blanket Purchase Agreements.
- c. Incentives should be designed to relate results achieved by the Contractor to specified targets. To the maximum extent practicable, ordering activities shall consider establishing incentives where performance is critical to the ordering activity's mission and incentives are likely to motivate the Contractor. Incentives shall be based on objectively measurable tasks.

3. ORDER

- a. Agencies may use written orders, EDI orders, blanket purchase agreements, individual purchase orders, or task orders for ordering services under this contract. Blanket Purchase Agreements shall not extend beyond the end of the contract period; all services and delivery shall be made and the contract terms and conditions shall continue in effect until the completion of the order. Orders for tasks which extend beyond the fiscal year for which funds are available shall include FAR 52.232-19 (Deviation – May 2003) Availability of Funds for the Next Fiscal Year. The purchase order shall specify the availability of funds and the period for which funds are available.
- b. All task orders are subject to the terms and conditions of the contract. In the event of conflict between a task order and the contract, the contract will take precedence.

4. PERFORMANCE OF SERVICES

- a. The Contractor shall commence performance of services on the date agreed to by the Contractor and the ordering activity.
- b. The Contractor agrees to render services only during normal working hours, unless otherwise agreed to by the Contractor and the ordering activity.

-
- c. The ordering activity should include the criteria for satisfactory completion for each task in the Statement of Work or Delivery Order. Services shall be completed in a good and workmanlike manner.
 - d. Any Contractor travel required in the performance of IT Services must comply with the Federal Travel Regulation or Joint Travel Regulations, as applicable, in effect on the date(s) the travel is performed. Established Federal Government per diem rates will apply to all Contractor travel. Contractors cannot use GSA city pair contracts.

5. STOP-WORK ORDER (FAR 52.242-15) (AUG 1989)

- a. The Contracting Officer may, at any time, by written order to the Contractor, require the Contractor to stop all, or any part, of the work called for by this contract for a period of 90 days after the order is delivered to the Contractor, and for any further period to which the parties may agree. The order shall be specifically identified as a stop-work order issued under this clause. Upon receipt of the order, the Contractor shall immediately comply with its terms and take all reasonable steps to minimize the incurrence of costs allocable to the work covered by the order during the period of work stoppage. Within a period of 90 days after a stop-work is delivered to the Contractor, or within any extension of that period to which the parties shall have agreed, the Contracting Officer shall either-
 - (1) Cancel the stop-work order; or
 - (2) Terminate the work covered by the order as provided in the Default, or the Termination for Convenience of the Government, clause of this contract.
- b. If a stop-work order issued under this clause is canceled or the period of the order or any extension thereof expires, the Contractor shall resume work. The Contracting Officer shall make an equitable adjustment in the delivery schedule or contract price, or both, and the contract shall be modified, in writing, accordingly, if-
 - (1) The stop-work order results in an increase in the time required for, or in the Contractor's cost properly allocable to, the performance of any part of this contract; and
 - (2) The Contractor asserts its right to the adjustment within 30 days after the end of the period of work stoppage; provided, that, if the Contracting Officer decides the facts justify the action, the Contracting Officer may receive and act upon the claim submitted at any time before final payment under this contract.
- c. If a stop-work order is not canceled and the work covered by the order is terminated for the convenience of the Government, the Contracting Officer shall allow reasonable costs resulting from the stop-work order in arriving at the termination settlement.
- d. If a stop-work order is not canceled and the work covered by the order is terminated for default, the Contracting Officer shall allow, by equitable adjustment or otherwise, reasonable costs resulting from the stop-work order.

6. INSPECTION OF SERVICES

In accordance with FAR 52.212-4 CONTRACT TERMS AND CONDITIONS--COMMERCIAL ITEMS (MAR 2009) (DEVIATION I - FEB 2007) for Firm-Fixed Price orders and FAR 52.212-4 CONTRACT TERMS AND CONDITIONS / COMMERCIAL ITEMS (MAR 2009) (ALTERNATE I /

OCT 2008) (DEVIATION I – FEB 2007) applies to Time-and-Materials and Labor-Hour Contracts orders placed under this contract.

7. RESPONSIBILITIES OF THE CONTRACTOR

The Contractor shall comply with all laws, ordinances, and regulations (Federal, State, City, or otherwise) covering work of this character. If the end product of a task order is software, then FAR 52.227-14 (Dec 2007) Rights in Data – General, may apply.

8. RESPONSIBILITIES OF THE ORDERING ACTIVITY

Subject to security regulations, the ordering activity shall permit Contractor access to all facilities necessary to perform the requisite IT Professional Services.

9. INDEPENDENT CONTRACTOR

All IT Professional Services performed by the Contractor under the terms of this contract shall be as an independent Contractor, and not as an agent or employee of the ordering activity.

10. ORGANIZATIONAL CONFLICTS OF INTEREST

a. Definitions.

“Contractor” means the person, firm, unincorporated association, joint venture, partnership, or corporation that is a party to this contract. “Contractor and its affiliates” and “Contractor or its affiliates” refers to the Contractor, its chief executives, directors, officers, subsidiaries, affiliates, Subcontractors at any tier, and consultants and any joint venture involving the Contractor, any entity into or with which the Contractor subsequently merges or affiliates, or any other successor or assignee of the Contractor. An “Organizational conflict of interest” exists when the nature of the work to be performed under a proposed ordering activity contract, without some restriction on ordering activities by the Contractor and its affiliates, may either (i) result in an unfair competitive advantage to the Contractor or its affiliates or (ii) impair the Contractor’s or its affiliates’ objectivity in performing contract work.

- b. To avoid an organizational or financial conflict of interest and to avoid prejudicing the best interests of the ordering activity, ordering activities may place restrictions on the Contractors, its affiliates, chief executives, directors, subsidiaries and Subcontractors at any tier when placing orders against schedule contracts. Such restrictions shall be consistent with FAR 9.505 and shall be designed to avoid, neutralize, or mitigate organizational conflicts of interest that might otherwise exist in situations related to individual orders placed against the schedule contract. Examples of situations, which may require restrictions, are provided at FAR 9.508.

11. INVOICES

The Contractor, upon completion of the work ordered, shall submit invoices for IT/IAM Professional services. Progress payments may be authorized by the ordering activity on individual orders if appropriate. Progress payments shall be based upon completion of defined milestones or interim products. Invoices shall be submitted monthly for recurring services performed during the preceding month.

12. PAYMENTS

For firm-fixed price orders the ordering activity shall pay the Contractor, upon submission of proper invoices or vouchers, the prices stipulated in this contract for service rendered and accepted. Progress payments shall be made only when authorized by the order. For time-and-materials orders, the Payments under Time-and-Materials and Labor-Hour Contracts at FAR 52.212-4 (MAR 2009) (ALTERNATE I – OCT 2008) (DEVIATION I – FEB 2007) applies to time-and-materials orders placed under this contract. For labor-hour orders, the Payment under Time-and-Materials and Labor-Hour Contracts at FAR 52.212-4 (MAR 2009) (ALTERNATE I – OCT 2008) (DEVIATION I – FEB 2007) applies to labor-hour orders placed under this contract. 52.216-31(Feb 2007) Time-and-Materials/Labor-Hour Proposal Requirements—Commercial Item Acquisition As prescribed in 16.601(e)(3), insert the following provision:

- a. The Government contemplates award of a Time-and-Materials or Labor-Hour type of contract resulting from this solicitation.
- b. The offeror must specify fixed hourly rates in its offer that include wages, overhead, general and administrative expenses, and profit. The offeror must specify whether the fixed hourly rate for each labor category applies to labor performed by—
 - (1) The offeror;
 - (2) SubContractors; and/or
 - (3) Divisions, subsidiaries or affiliates of the offeror under a common control.

13. RESUMES

Resumes shall be provided to the GSA Contracting Officer or the user ordering activity upon request.

14. INCIDENTAL SUPPORT COSTS

Incidental support costs are available outside the scope of this contract. The costs will be negotiated separately with the ordering activity in accordance with the guidelines set forth in the FAR.

15. APPROVAL OF SUBCONTRACTS

The ordering activity may require that the Contractor receive, from the ordering activity's Contracting Officer, written consent before placing any subcontract for furnishing any of the work called for in a task order.

16. DESCRIPTION OF IT PROFESSIONAL SERVICES AND PRICING

- a. The Contractor shall provide a description of each type of IT Service offered under Special Item Numbers 132-51 IT Professional Services should be presented in the same manner as the Contractor sells to its commercial and other ordering activity customers. If the Contractor is proposing hourly rates, a description of all corresponding commercial job titles (labor categories) for those individuals who will perform the service should be provided.
- b. Pricing for all IT Professional Services shall be in accordance with the Contractor's customary commercial practices; e.g., hourly rates, monthly rates, term rates, and/or fixed prices, minimum general experience and minimum education.

The following is an example of the manner in which the description of a commercial job title should be presented:

EXAMPLE:

Commercial Job Title: System Engineer

Minimum/General Experience: Three (3) years of technical experience which applies to systems analysis and design techniques for complex computer systems. Requires competence in all phases of systems analysis techniques, concepts and methods; also requires knowledge of available hardware, system software, input/output devices, and structure and management practices.

Functional Responsibility: Guides users in formulating requirements, advises alternative approaches and conducts feasibility studies.

Minimum Education: Bachelor's Degree in Computer Science

MDA Information Systems LLC
Labor Category Descriptions
IT70 SIN 132-51

#	GSA Labor Category	Minimum/General Experience and Years of Experience	Functionality Responsibility
1	Project Manager 1	2 + PhD* 4 + MA/MS* 6 + BS* *must also have 2+ years project management experience and 4 years “hands-on” software engineering BS in Computer Science, or similar technical education	Serves as the principal point of contact for client technical services on a specific task. Performs Program Integration and Project Management activities, including staffing, project planning, performance tracking, quality assurance, and business management. May also participate as a contributing senior staff member on consulting tasks.
2	Project Manager 2	4 + Ph.D* 6 + MA/MS* 10 + BS* *must also have 3+ years project management experience and 4 years “hands-on” software engineering BS in Computer Science, or similar technical education PMP or IT Certification	Serves as the principal point of contact for client technical services and on a specific task. Performs Program Integration and Project Management activities, including staffing, project planning, performance tracking, quality assurance, and business management. May also participate as a contributing senior staff member on consulting tasks.
2	System Architect 1	BS/MS in computer science or related field 5+ years of software development experience, including work on large-scale applications	Devises, builds and maintains networking and computer systems. Able to install both hardware and software during set-up and maintenance of computer systems.

4	System Architect 2	<p>BS, MS or PhD in computer science or related field</p> <p>7+ years of software development experience, including work on large-scale applications</p>	<p>Devises, builds and maintains networking and computer systems. Able to install both hardware and software during set-up and maintenance of computer systems. Responsible for provisioning, configuring and operating the network systems. Offers technical support and creates instructions for users. This is often a supervisory role providing oversight of IT staff and developers.</p>
5	System Engineer 1	<p>7 + MA/MS 10 + BA/BS</p> <p>BA in Computer Science, Engineering, Information Technology, or related field.</p> <p>IAM Level I</p>	<p>Provides installation, maintenance, and operational support systems in support of application development and integration. Provides daily supervision to staff</p>
6	System Engineer 2	<p>6 + PhD 10 + MA/MS 14 + BA/BS</p> <p>BA in Computer Science, Information Systems, Engineering or related scientific or technical discipline</p> <p>IAM Level I</p>	<p>Responsible for the conceptualization, design, development, and fielding of information systems and applications that capitalize upon information sharing as a means to gain process efficiency. Focus is upon the conversion of data into information and the enterprise-wide application of that information. Generally serves in a senior or lead technical role on a project.</p>
7	Software Engineer 1	<p>2 + MA/MS 4 + BA/BS</p> <p>BA in Computer Science, Information Systems, Engineering or related field</p> <p>IAT Level I</p>	<p>Generates software code based on functional and conceptual design specifications for computer applications.</p>

8	Software Engineer 2	<p>2 + PhD 4 + MS 6 + BA/BS</p> <p>BA in Computer Science, Information Systems, Engineering, or related field</p> <p>IAT Level II</p>	<p>Provides software development technical team leadership. Provides high level expertise in developing complex software applications involving new technologies, methods, concepts, or approaches. Based on functional and conceptual design specifications, develops diagrammatic plans and design logic required to implement computer programs.</p>
9	Geospatial Scientist 1	<p>3 + BS in Geospatial Information Science, Geography, or a related technical or scientific discipline</p>	<p>Supports production of maps, tables, reports, and data layers using GIS technology and various computer software programs and tools such as geographic information systems, global positioning systems (GPS), and other remote technology sensors to gather geographic information.</p>
10	Geospatial Scientist 2	<p>5 + BS in Geospatial Information Science, Geography, or a related technical or scientific discipline</p>	<p>Produces maps, tables, reports, and data layers using GIS technology and various computer software programs and tools such as geographic information systems, global positioning systems (GPS), and other remote technology sensors to gather geographic information.</p>
11	GIS Expert	<p>6 + PhD* 9 + MA/MS* 12 + BS*</p> <p>*must also have 5+ years project management experience and 6 years “hands-on” technical engineering experience.</p> <p>BS in Computer Science, or similar technical education.</p>	<p>Provides subject matter expertise and technical direction in development and application of Geographic Information Systems. This is a specialized category to acquire expert consulting services in a particular technical discipline.</p>

12	Remote Sensing Analyst	5 + BA/BS BA in a scientific, technical, business or related field	Supports project technical analysis and provides specific functional understanding of variety of mission objectives, including analysis of systems, procedures, training and operational processes.
13	Remote Sensing Scientist	8 + BA/BS BA in a scientific, technical, business or related field	Leads project technical analysis and provides specific functional expertise of variety of mission objectives, including analysis of systems, procedures, training and operational processes. Takes a leadership role.
14	Agriculture Scientist	5 + BA/BS in a scientific, technical, business or related field	Conducts research and provides consultation for agricultural-related systems. Develops ways to improve the quantity, quality, and output of agricultural systems.
15	Weather Scientist	5 + BA/BS in a scientific, technical, business or related field	Uses information from charts, pictures, and data reports regarding the atmosphere to model and forecast weather patterns. Responsible for assessing weather conditions using information collected from satellites, weather stations and radar equipment.
16	Research Specialist	5 + BA/BS in a scientific, technical, business or related field	Plans, organizes, and conducts research in support of a technical initiative. Analyzes information and statistical data to prepare reports and studies for use by IT, engineering, or other technical professionals.
17	Regional Expert	5 + BA/BS BA in a scientific, technical, business or related field	Provides subject matter expertise and consulting for the application and development of models and tools with regional application. Provides specific functional understanding of variety of mission objectives, including analysis of systems, procedures, training and operational processes.
